

The technical drawing shows a horizontal cylindrical tank with the following specifications:

- Side Elevation View (Top):**
 - Overall length: 17000
 - Overall height: 2905
 - Height from base to top of upper flange: 1435
 - Height from base to bottom of lower flange: 1470
 - Height from base to top of upper flange (excluding tank body): 300
 - Height from base to bottom of lower flange (excluding tank body): 445
 - Internal height from base to top of tank body: 2150
 - Volume: $V = 30 \text{ cbm}$
- Top Plan View (Bottom):**
 - Overall width: 6000
 - Overall length: 17000
 - Internal diameter: $O = 80 \text{ qm}$
 - Segment lengths from left to right: 3000, 2500, 3000, 3000, 2500, 3000
 - Left inlet: Zulauf, DN 500, Da 500
 - Right outlet: Ablauf, DN 500, Da 500
